

On December 4th, Gruppo CAP and the shareholders of ALA signed the financing agreement that will allow Cap Holding to acquire the 20%, with an option to increase up to the 40%, of the capital of Aemme Linea Ambiente S.r.l. (ALA). ALA is a company of the AMGA Group, established from the merger of the environmental hygiene service branches of AMGA Legnano SPA, ASM Magenta, and AMSC Gallarate.

This new arrangement aims to enhance efficiency and improve the quality of service for a target population of over 530,000 inhabitants in the northwest area of Milan and lower Varese, through the implementation of industrial and logistical synergies.
